**Subject: Changes to Medical Assistance Copayments**

Are there changes to Medical Assistance copayments, and when will they be effective?

**Response By: Division of Health Service**

**Date:04/04/12**

The Office of Medical Assistance Programs (OMAP) is advising that copayments are changing effective May 15, 2012. OMAP began sending out notification (CM 496) on March 19, 2012 to inform individuals of these copayment changes. See the [attachment](#) for a copy of this notification.

These changes do **not** apply to individuals who are in a managed care plan or are not currently required to pay a copayment.
