Subject: Changes to the Reimbursement Referral Form

The OIG 173 S Reimbursement Referral form is used by the CAO to refer individuals who have had an accident or injury to OIG or to TPL. Data in the PROMISE claim system is stored by the client's individual number. Can the OIG 173 S be revised to include the individual number for the claim name or injured party?

Response By: DWRI

Date:02/20/09

The Reimbursement Referral Form has been revised, as follows:

- The client's individual number has been added to the form as Item #10. The remaining fields have been renumbered to accommodate the addition of the individual number field.
- The "S" designator in the form number has been removed.

The revised OIG 173 Reimbursement Referral Form is available on DocuShare. Supplemental Handbook [Chapter 915](#), Reimbursement, will be revised to reference the modified OIG 173.
