**Agency:** CAOs

**Response By:** Division of Health Services

**Date:** 4/11/2018

No. Children in pediatric facilities should not have a nursing facility code indicated on the Facility Placement screen in Case Processing (CP) because pediatric facilities are not licensed with the Commonwealth as nursing facilities.

The CAO must use Facility Code 09 – Educational Placement on the Facility Placement screen for children in pediatric facilities. Using Facility Code 09 ensures the individual is enrolled in a physical and behavioral health Managed Care Organization (MCO) in their county of placement.
