Subject: Notice of Privacy Practices

Is the PA1806 Notice of Privacy Practice being mailed to the client as a part of each automated renewal packet? It is not listed as a mandatory or optional form in the packets. Please see Supplemental Handbook 930.11. Thank you.

The CAO must provide the PA 1806 at every application. Additional notification of the Notice of Privacy Practices is required at a minimum of every three years. COMPASS applications also provide links to HIPAA.

The CM 472 is a abbreviated notice/reminder that the Notice of Privacy Practices is available. As long as a budget is in SAR, the CM 472 is included as part of the SAR forms.

PCA 13195930/PMA 13195930/PFS 13195930 is obsolete. SH 930 will be updated at a future time.
