CITATIONS: CAH 131.3

Question:

If a TANF household cash assistance grant is reduced by 25% for failure to comply with support requirements, what is the effective date of eligibility for the full TANF grant after compliance is verified and the reduction is removed? Is a supplemental OTI required?

Response by: Howard Lauffer

Approved by: Luellen Schmidt

A TANF household whose cash grant is reduced for failure to comply with support requirements is entitled to removal of the 25% reduction effective the first payment date that can be met after the compliance has been verified. As these individuals continue to be coded with an ES status, the compliance is not an eligibility factor for the individual. A supplemental OTI is not issued.
