82c Locked poisons

1. Requirements

2800.

82.c. Poisonous materials shall be kept locked and inaccessible to residents unless all of the residents living in the residence are able to safely use or avoid poisonous materials.

Description of Violation

A one quart bottle of Oxivir TB brand disinfectant spray, with a manufacture's label indicating "call poison control", was located in a cabinet under the kitchenette sink of the Red Oak secure dementia care unit. The kitchenette has a half door that was not locked. The bottle would be accessible to a resident who opened the door and the cabinet. Not all the residents of the residence have been assessed capable of recognizing and using poisons safely.

Plan of Correction

Spray was removed on 2/1/2022 during inspection. Staff who put the chemical under the sink was educated on 2/1/22. All staff education regarding chemical storage was done on 2/1/22 and 2/3/22 via in person or email. Chemical storage Relias course will be done yearly for all assisted living staff. Administrator will include proper chemical storage as a training reviewed at a staff meeting once a year, starting in June 2022.

Completion Date: 06/01/2022

Document Submission
