Yes, a revised version of the PA 1768 dated December 2022 is now available on DocuShare in the Long-Term Care Folder and is attached ([Attachment 1](#)). There are no changes to the requirements for the completion or submission of the PA 1768.

The following updates have been made:

- Part I more clearly differentiates between Money Follows the Person (MFP) codes and waiver codes.
- Use of an MFP consent form has been removed from the MFP instructions.
- All references to the Aging, Attendant Care and Independence Waiver have been removed.

Older versions of the PA 1768 will continue to be accepted.
