

**Case ID:**

**DOB:**

The medical information you have provided indicates that you may be eligible for disability benefits (SSI/SSDI) through the Social Security Administration (SSA).

As a condition of eligibility for Medical Assistance/Cash Assistance, you must apply for these disability benefits through the SSA. You may apply at 1-800-772-1213 or at [www.ssa.gov](http://www.ssa.gov).

If you need help filing your application or completing required forms, Disability Advocacy Program staff are available to assist with the Supplemental Security Income (SSI)/Social Security Disability Insurance (SSDI) application process. To request assistance with these forms, please contact your local CAO at <CAO Phone Number> and ask for the Disability Advocate.

In order to remain eligible for Medical Assistance/Cash Assistance benefits, you must provide verification to this office that you have filed an application with SSA. Acceptable verification consists of the SSA application confirmation letter (pages 1 and 2) that you will receive after you have filed the application. Verification must be provided within 60 days of the date on this letter.

In addition, you must cooperate with the SSA in the application process for obtaining disability benefits, including keeping appointments scheduled by the Bureau of Disability Determination and returning all completed paperwork requested by the SSA.
