Subject: Reporting Requirements/Averaged Income

In a non-SAR household, when an average has been established for unearned income, what are the requirements for reporting a change in unearned income?

Response By: Division of Federal Programs

Date: 11/28/06

FSH chapter [570.22](#) requires that non-SAR households must report changes in unearned income over \$50.00 of the current actual or averaged monthly household income. Non-SAR households are required to report changes in circumstances by the 10th day following the month of change.
