

# Policy Clarification - SNAP

## PFS-17511-578

**Submitted:** 4/24/15

**Agency:** CAOs

**Subject:** Resource Test and Pended Applications

**Question:** We have a SNAP application that was received on 4/17/15 and is pending due to requested resource verification. Now that resources are no longer counted for categorical eligible household should we continue to hold the application waiting until we receive the resource verification or should we process the application?

---

**Response By:** Division of Federal Programs

Effective 4/27/15 if the only information pending on the SNAP application is resource verification you should process the application regardless of whether resource verification was received or not. See [OPS 15-04-03](#).
